

Taking Shapes

Taking Shape – 2-3 days

Taking Shapes as a concept has evolved from my popular Modern Wedge Workshops. Free yourself from following a pattern and start a practice following your own instincts! We will work with 60 degree shapes in a variety of scales and layouts to create individual contemporary quilt designs! Explore triangles, diamonds, hexagons and more using acrylic templates and a variety of fabric styles.

Using templates allows us to cut accurately and then sewing accurately is easy! We will work on a design wall and watch the pattern evolve. We will examine fabric in regard to color, value, print and character with a view to let the fabric do the work! Several different patterns and ideas will be presented for you to choose from but the outcome is up to you!

Supply List:

JayBirds Quilt Templates:

Hex N'More, Sidekick or Super Sidekick

An assortment of fabrics from your stash - bring the fabrics you have always loved and wanted to use!

10", 18" or 1-2 yards for borders
